DETAILED ACTION

Response to Amendment

1. This Final Office Action is in response to the Amendment filed April 4, 2004. By the Amendment, claims have been amended. Claims 284-289 have been added. Claims 1, 53-143, 284-289 are pending in the application.
2. Applicant's amendment has overcome the 35 U.S.C. 112, first and second paragraph

Response to Arguments

3. Applicant's arguments filed April 5, 2004 with regard to the 35 U.S.C. 103 rejection have been fully considered but they are not persuasive.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.
5. Claims 1, 53-143, and 284, 286, and 288 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reilly et al (U.S. Patent No. 5740549) in view of Pirani et al (U.S. Patent No. 5,105,184) as set forth in the last Office Action of paper number 17.

Art Unit: 3623

6. Claims 284, 286, and 288 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reilly et al (U.S. Patent No. 5,740,549) in view of Pirani et al (U.S. Patent No. 5,105,184) and further in view of Byrne (Getting the message across). As per claim 285, 287, and 289, the combination of Reilly et al and Pirani does not disclose a traditional advertising location is a billboard. Byrne discloses the idea of an advertising location in a billboard. It would have been obvious to a person of ordinary skill in the art at the time of applicant's invention to modify the disclosures of Reilly et al, and Pirani to incorporate an advertising location in a billboard in the same conventional manner as disclosed by Byrne with the motivation to promote brand-recognition.

Remarks

7. Applicant has amended the claims to recite ... new on a recurring basis and plurality of images The examiner notes that Reilly et al teach updating the advertisement in every few seconds and displaying images of the advertisement. Since the advertisement is being updated periodically, it implies that new advertisement is being received. Note col. 8 lines 45-67.

Applicant further argued that Pirani does not disclose a means for receiving new advertising data on a recurring basis. In response, examiner disagrees with argument because Reilly does teach applicant's amended claimed limitations. Note col. 8, lines 45-67. In response to applicant's argument in claim 1 that "different commercial advertisements are displayed in predetermined positions or traditional advertising locations in an executable program.... and these ads are displayed on a billboard or on the

Art Unit: 3623

clothing of a race car driver can be updated..." it is noted that the features upon which applicant relies are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Applicant further argued that claim 58 depends from amended independent claim 1 and, due to such dependency, it is also believed to be distinguishable from Reilly and Pirani. The examiner notes that since claim 1 is rejected from the applied references Reilly et al and Pirani; therefore, claim 58 is still rejected from the applied references of Reilly et al, Pirani, and Handelman.

Applicant further argued that claim 61 depends from amended independent claim 1 and, due to such dependency, it is also believed to be distinguishable from Reilly and Pirani. The examiner notes that since claim 1 is rejected from the applied references Reilly et al and Pirani; therefore, claim 61 is still rejected from the applied references of Reilly et al, Pirani, and Hornbuckle.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
